

Thinking of you

Electrolux

We help consumers manage their homes and enjoy their lives with a wealth of thoughtfully designed and innovative appliances that meet their real needs. When it comes to food preparation, there are many different ways to prepare a meal, and even more different local customs and standards to observe: gas cookers, electric cookers, induction technology, built-in hobs, ranges, regular ovens, steam ovens.

The European Product Development Cooking, a team of more than 300 people based in 8 different locations in Europe, with a strong presence in Forlì (Italy) and Rothenburg (Germany), plays a key role in developing advanced solutions for all these product categories. Perhaps that is why we make and sell more cookers than anyone else in the world.

The strength of Product Development stays in his people; this is why we are truly committed to growing people, in giving them possibilities to develop within R&D and in other functions, locally and internationally.

Currently we are looking for a:

Mechanical Designer

You will join our Product Development Cooking team in the Forlì site in the North-Centre of Italy, near Bologna and Rimini beach.

Objective:

Design and develop mechanical components for cooking products

Main Responsibilities:

You will work in a team that develops new products/components from project initiation to production start. Tasks:

- Define and develop of new products / components
- Feasibility test on products and process
- Performance and functionality tests
- Technical documentation update and maintenance
- Report project status to Check Point meetings
- Assure the respect of internal product development procedures

Competencies needed:

- Degree in mechanics (preferably university level)
- Good communication, organizational skills
- Ability to drive and complete activities and work with minimal supervision
- Excellent analytical and problem-solving skills
- Good command of English (English is the working language)
- IT skills: CAD / Catia 5, Microsoft Office
- Young graduate or candidate with first experience
